

OBIC

Interactive App Prototype — Function Guide

V1 · Arabic is the default language (switch to English anytime)

Designed & developed by Ali

Confidential · Internal use · www.obicgp.com · 2026-08-05

1. Introduction

This guide explains every function in the OBIC interactive prototype for customers and staff. Default UI language is **Arabic** with full RTL; users can switch to English.

Confidentiality: Do not commit Desktop deal/PRD/staff secret docs into the repository. This guide and prototype are for internal stakeholder review.

Designed & developed by Ali

2. Language switch

Use the side panel or Home / Me to switch **Arabic** ↔ **English**. Arabic enables full right-to-left layout.

3. Home (Ctrip-like density)

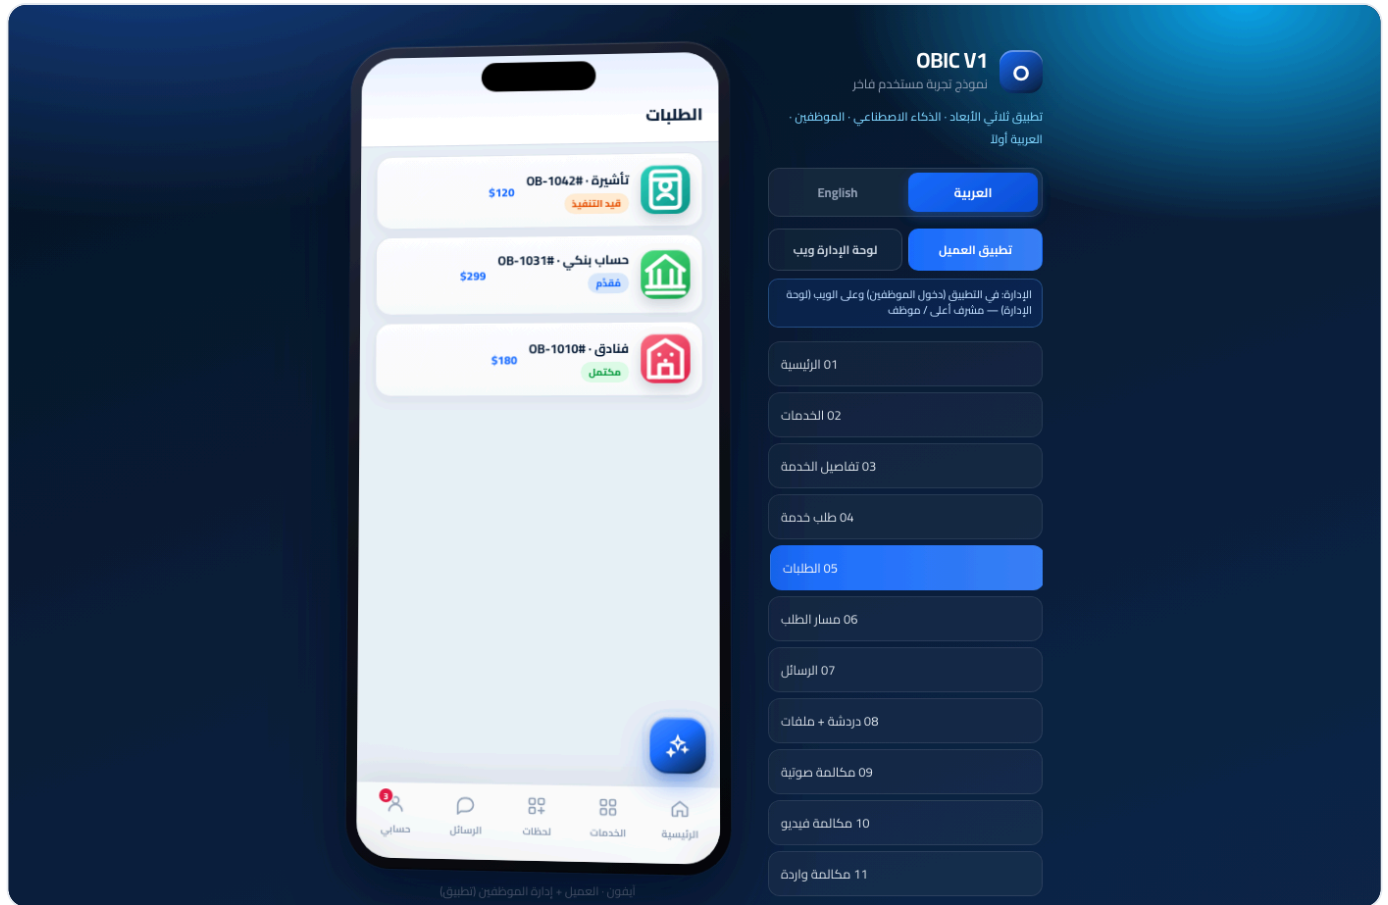

3D service tiles, search, floating promos, banners, and OBIC AI fab. Bottom tabs: Home · Services · Moments · Messages · Me.

Default Arabic Home (RTL)

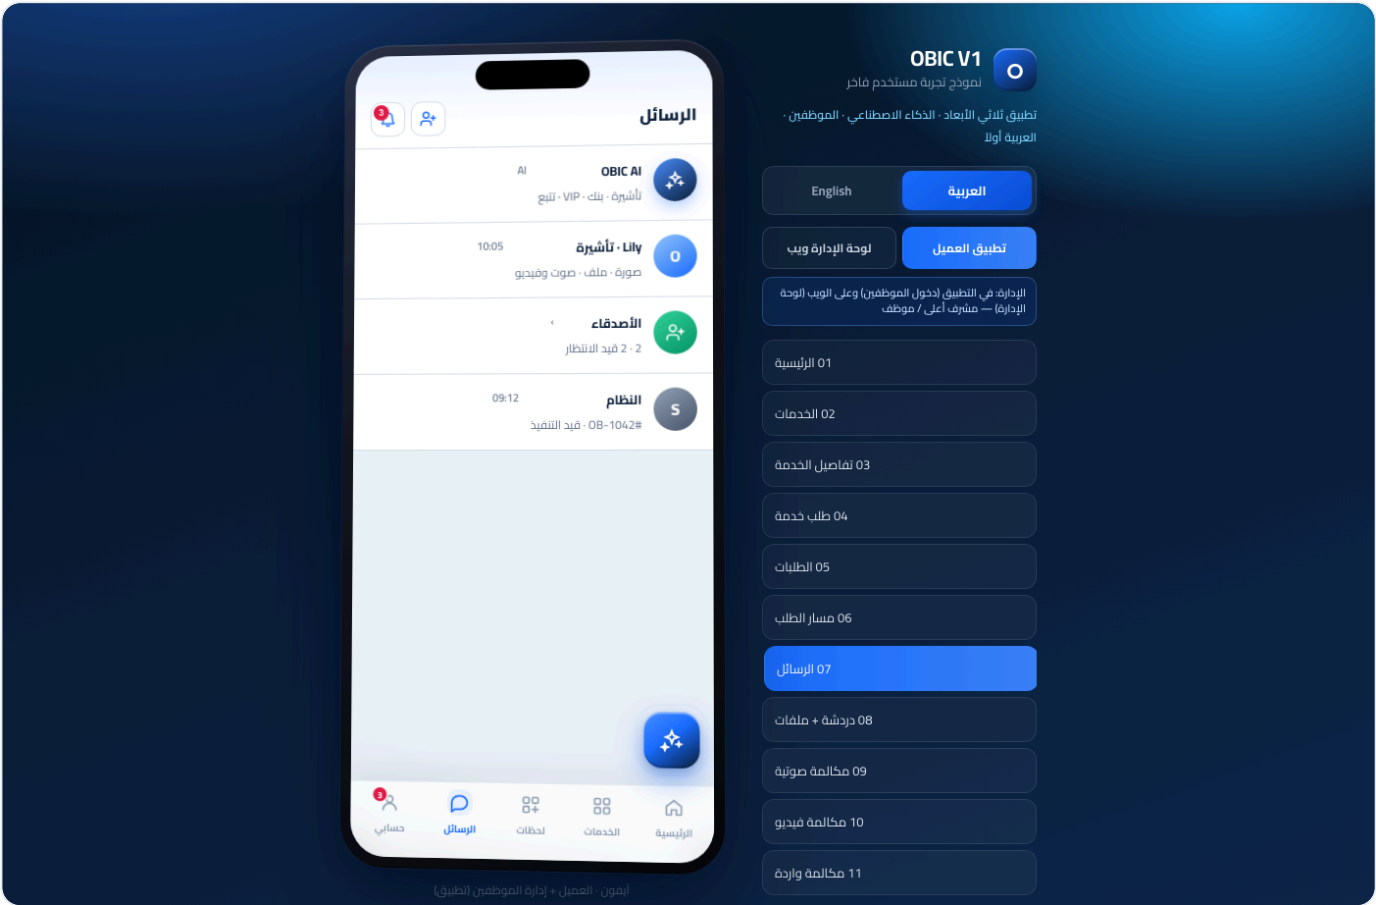

4. Services & Orders

Service detail → request form → orders list and status timeline.

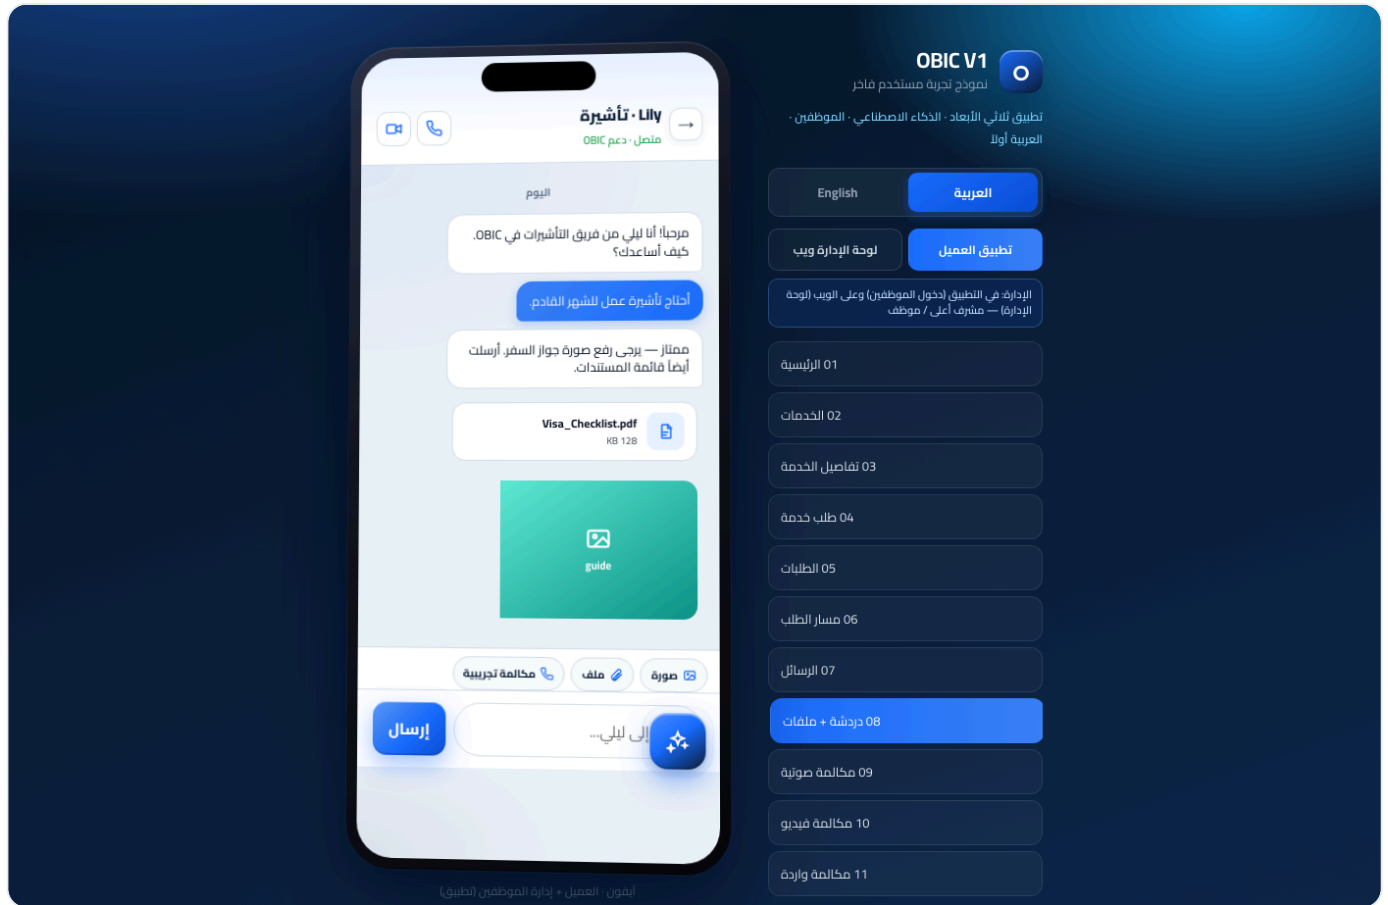

Orders list with statuses

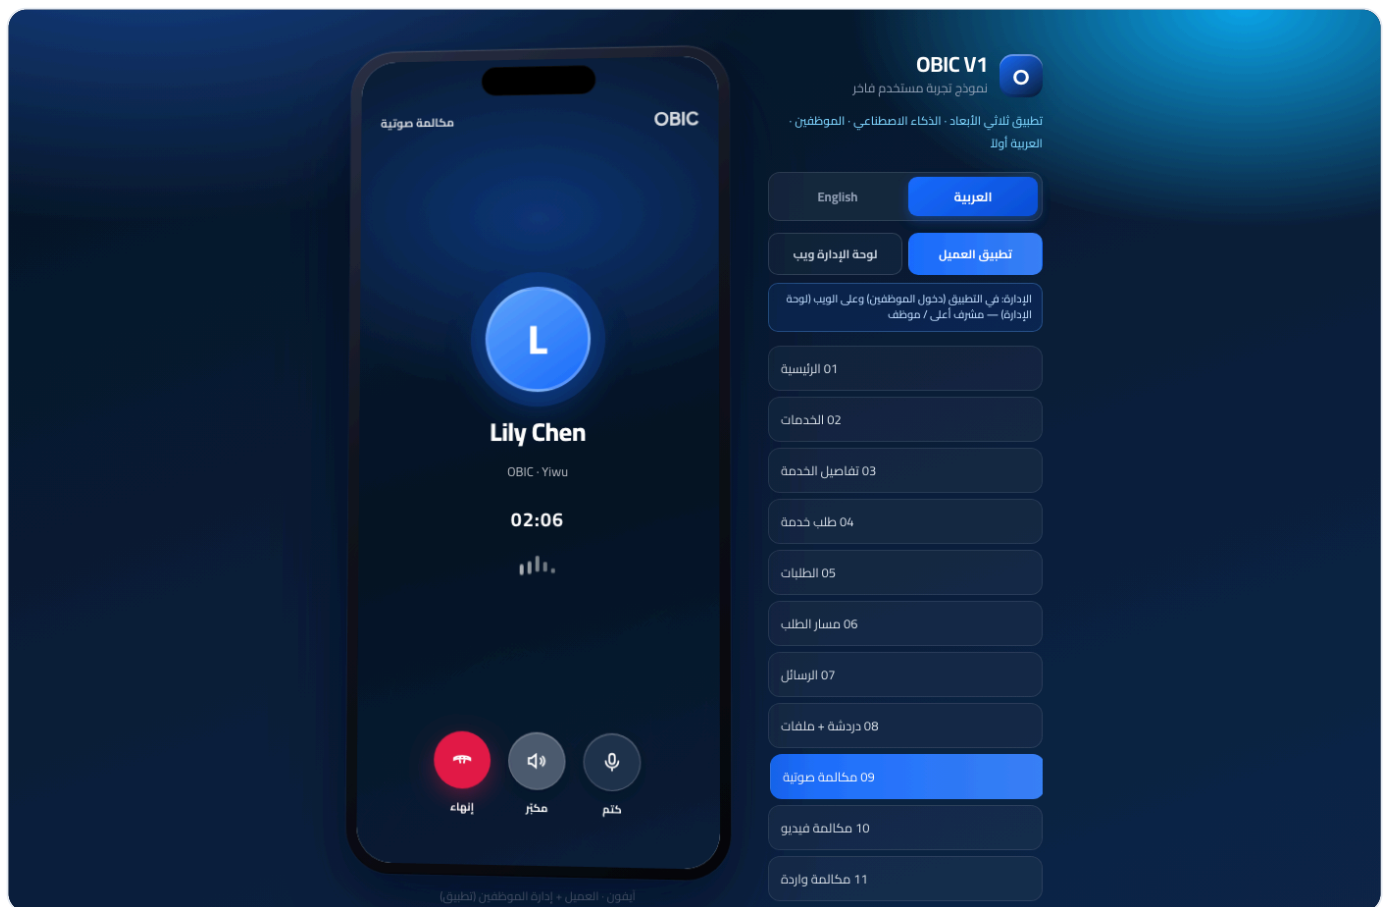

5. Messages & Chat (files / voice / video)

Messages · AI · Friends entry

Chat with photo/file tools and call entry

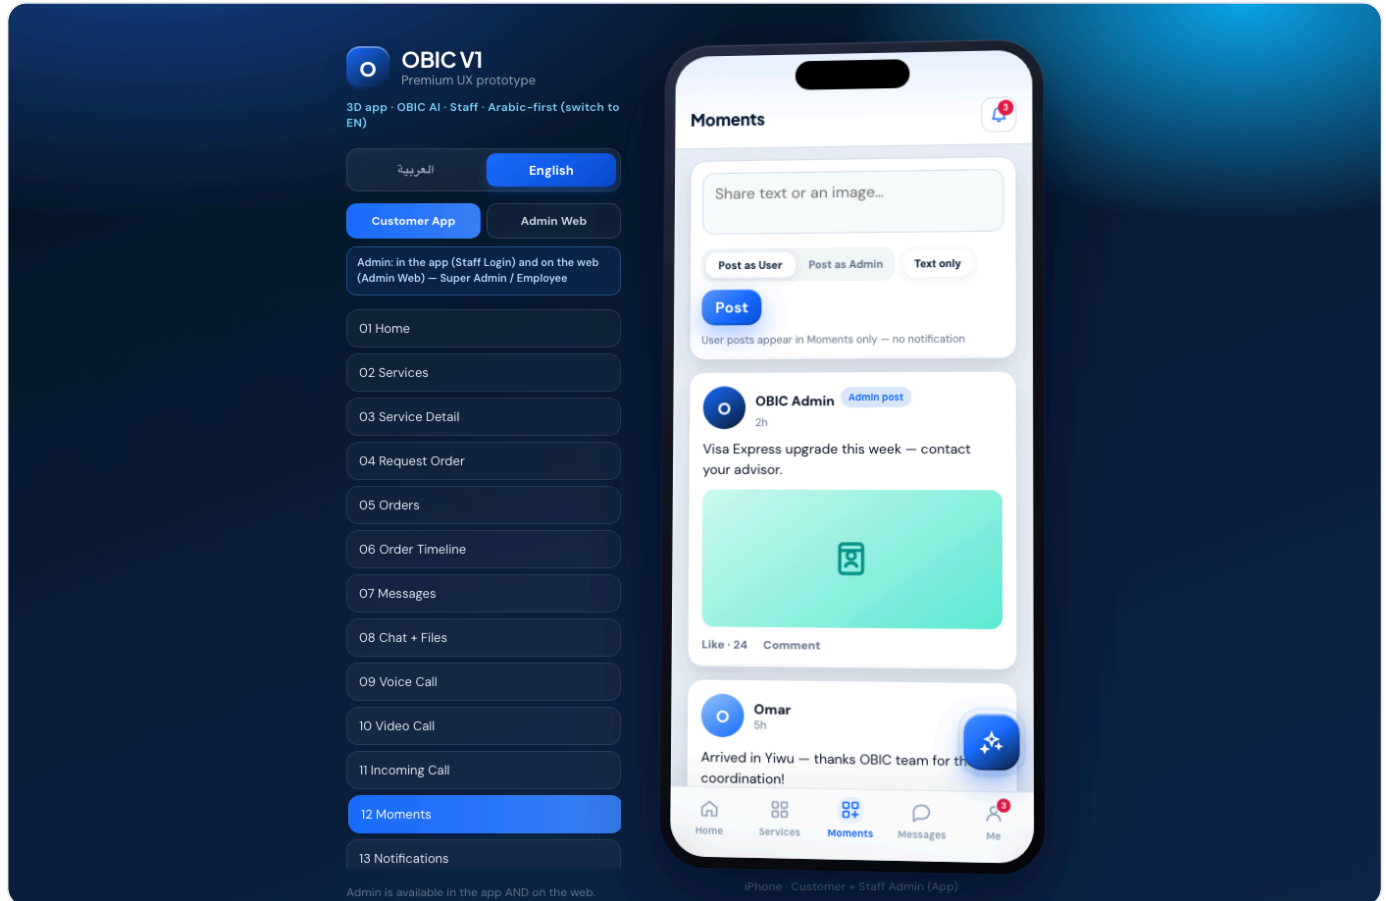

Voice call glass UI

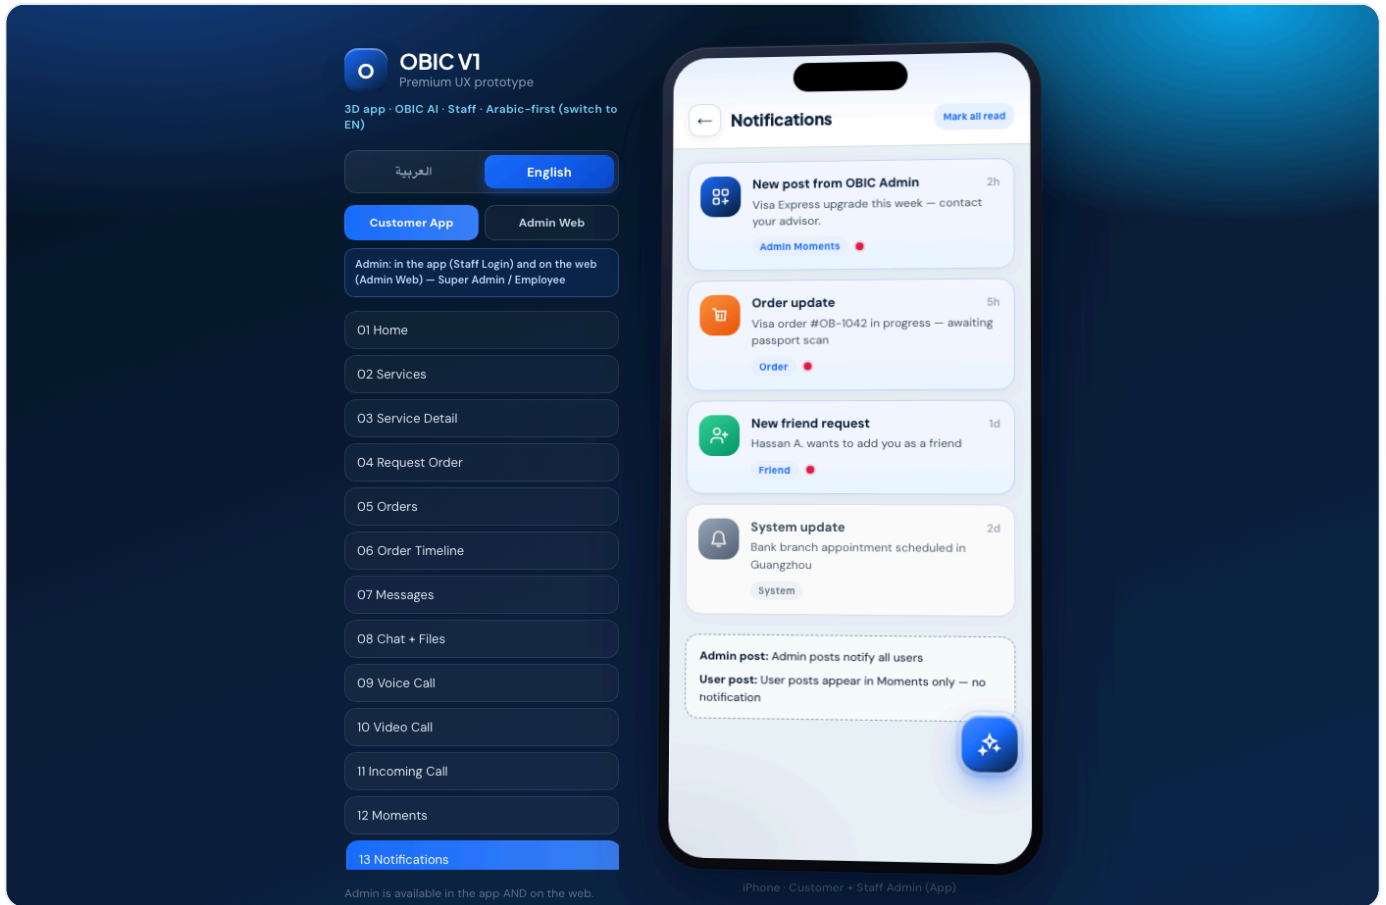

6. Moments (–style feed)

Notification rules:

- When **Admin** posts → **all users** get a notification (badge + list entry).
- When a **User** posts → appears in Moments feed only; **nobody is notified**.

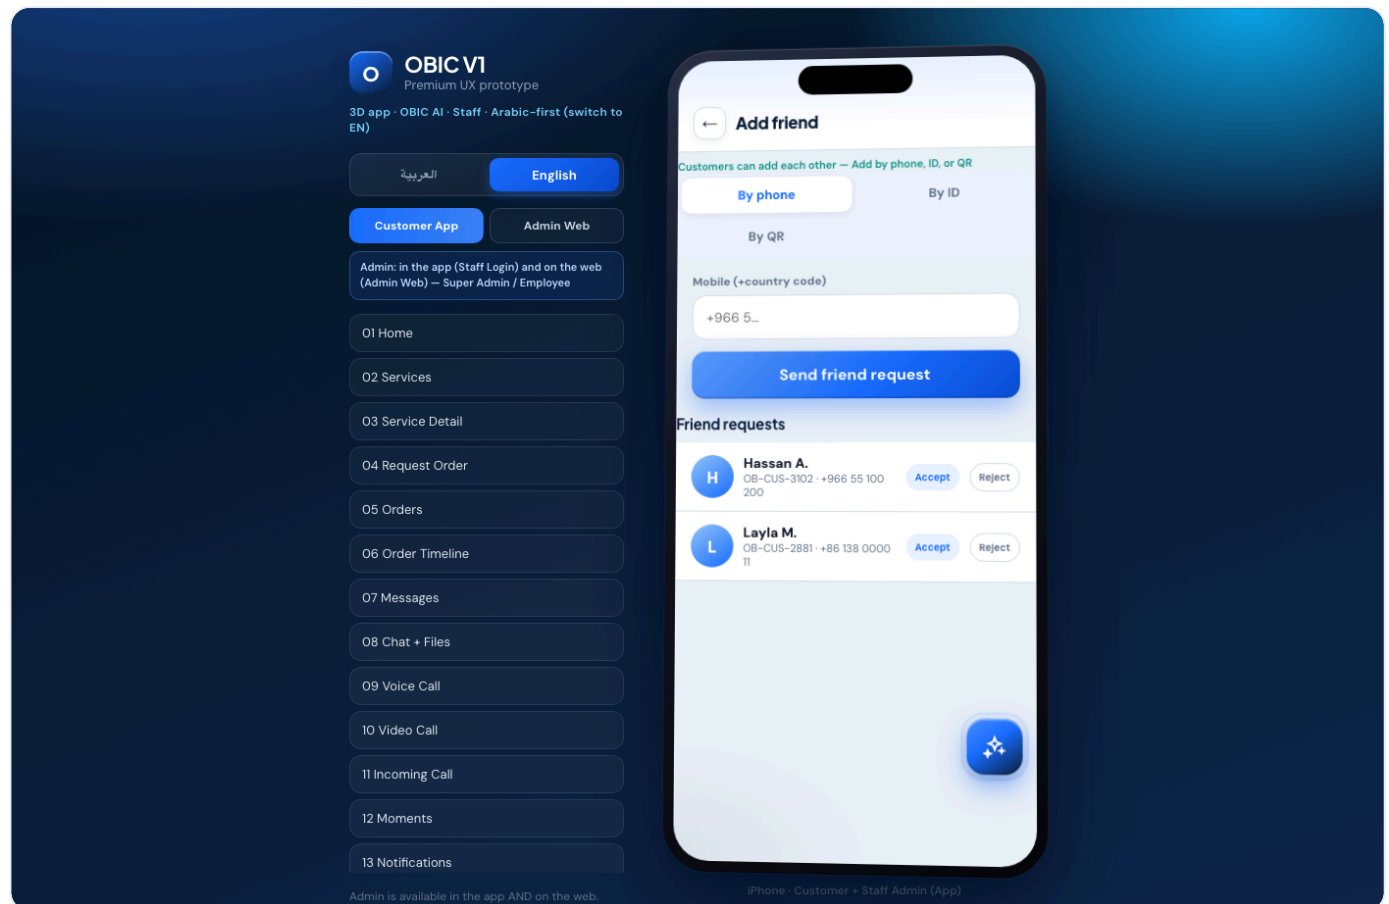

Moments — post as User or Admin

Notifications — admin posts only

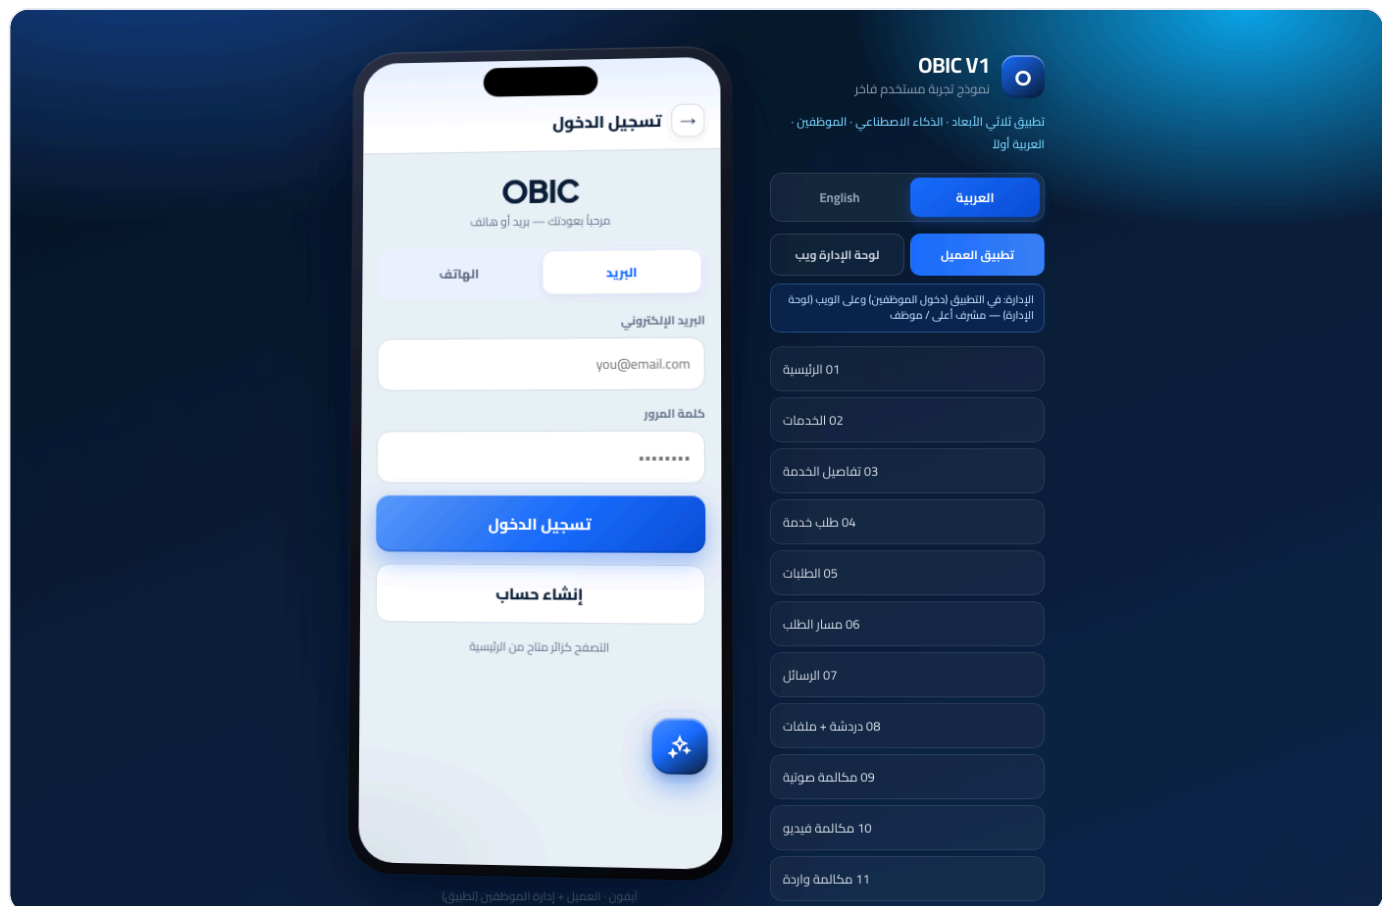

7. Add friends (customers)

Customers can add each other by phone, ID, or QR, with friend requests.

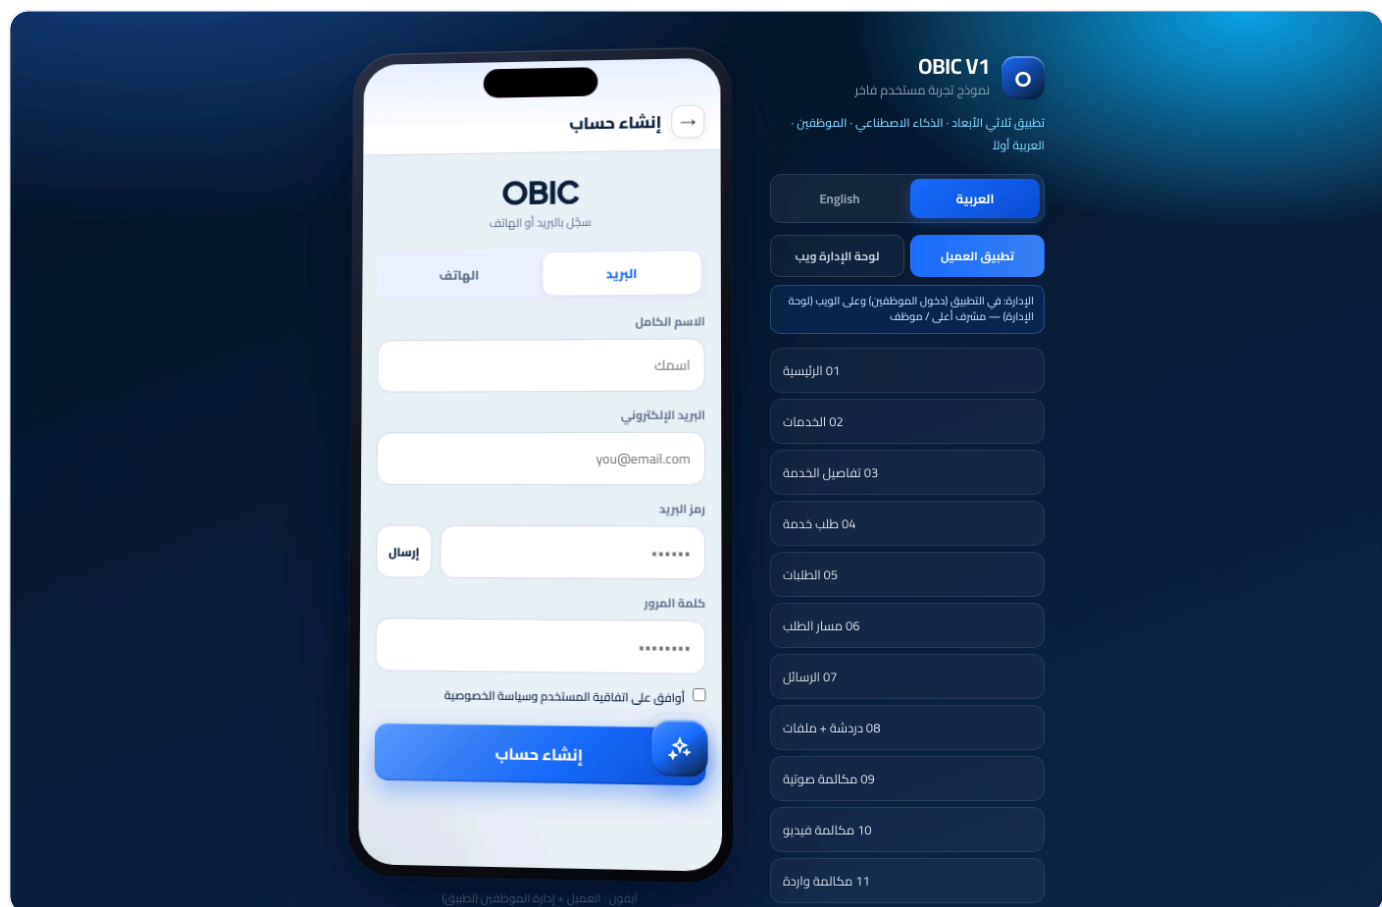

Add friend by phone / ID / QR

8. Login & Register (Email | Phone)

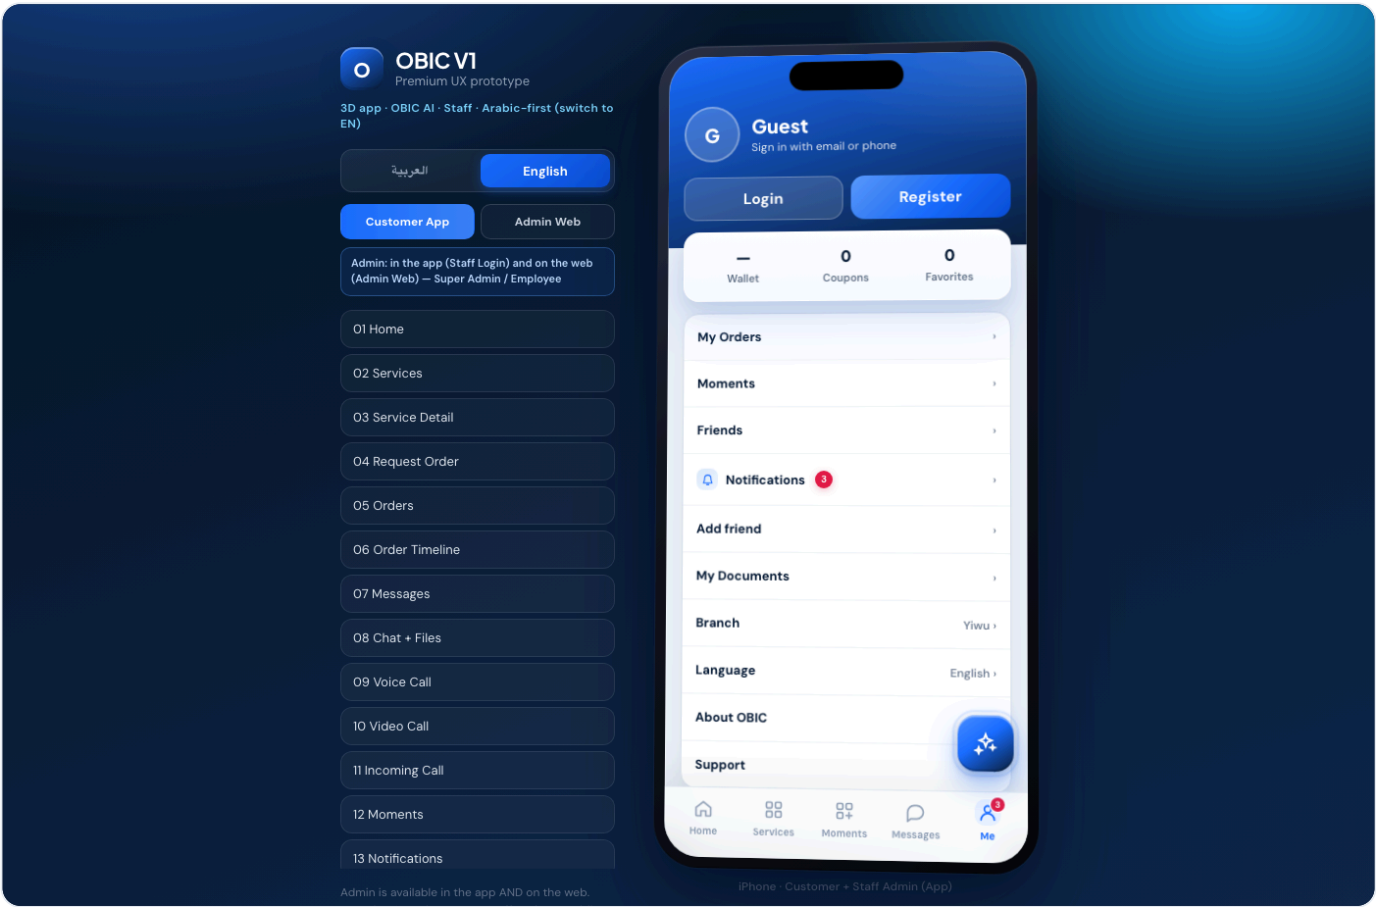

Login — Email or Phone tabs

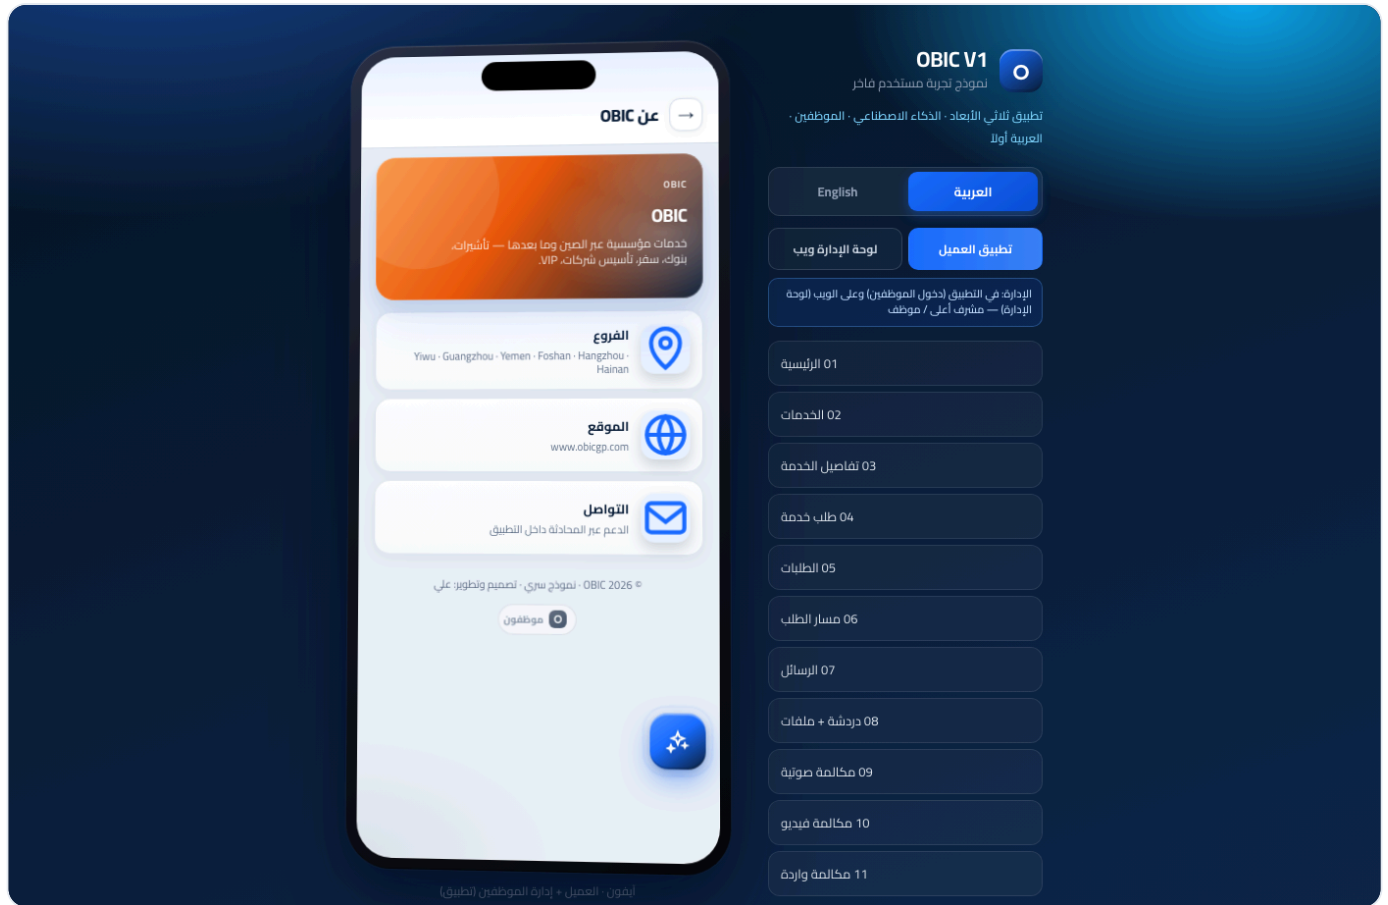

Register — Email or Phone with verification code

9. Me · About · Staff entry

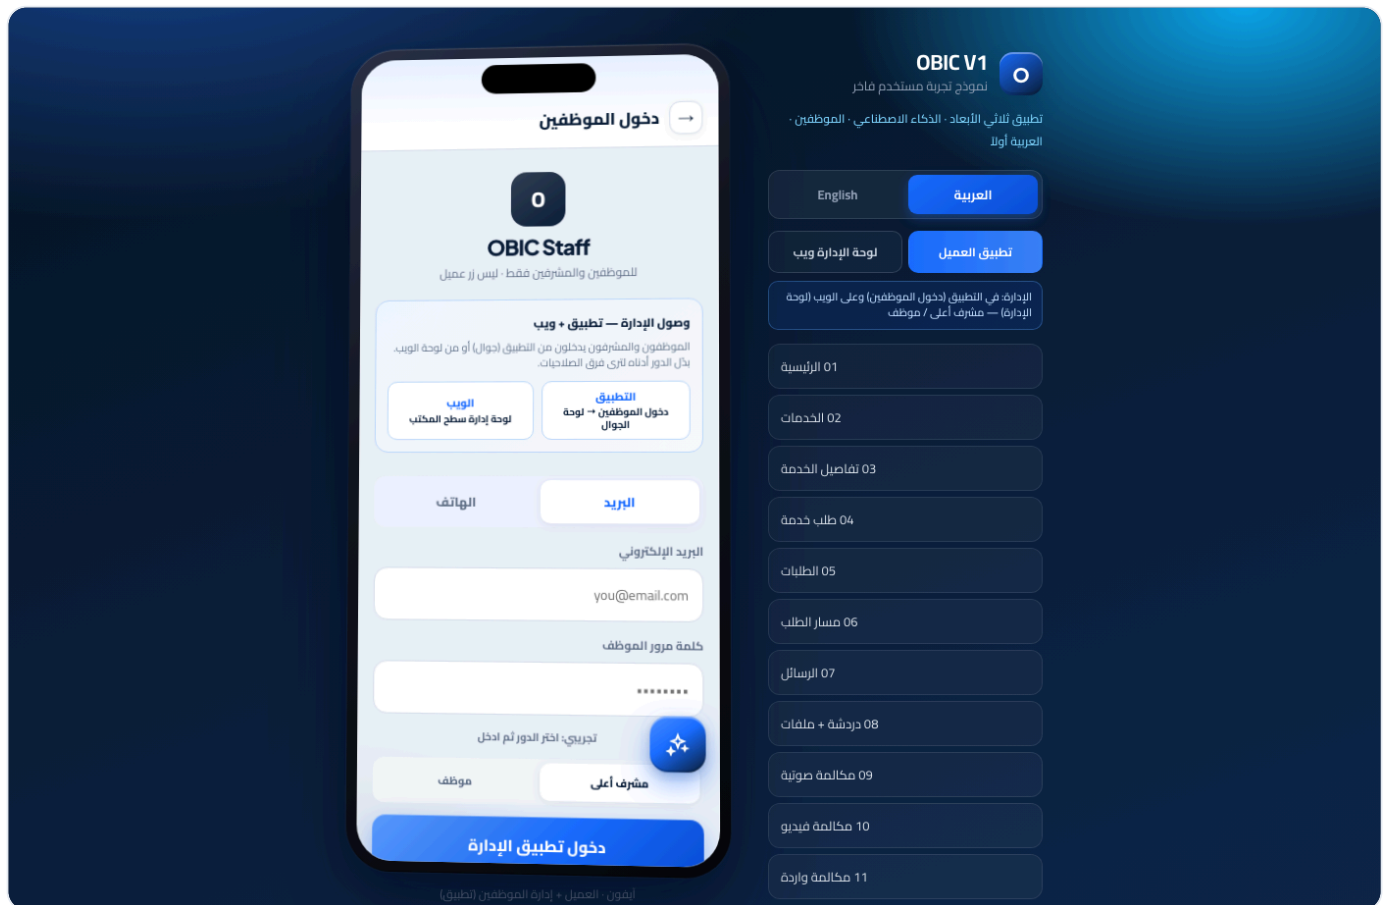

Tiny **O Staff** mark on Me / About opens Staff Login (not a customer CTA).

Me — language, friends, Moments + Designed by Ali

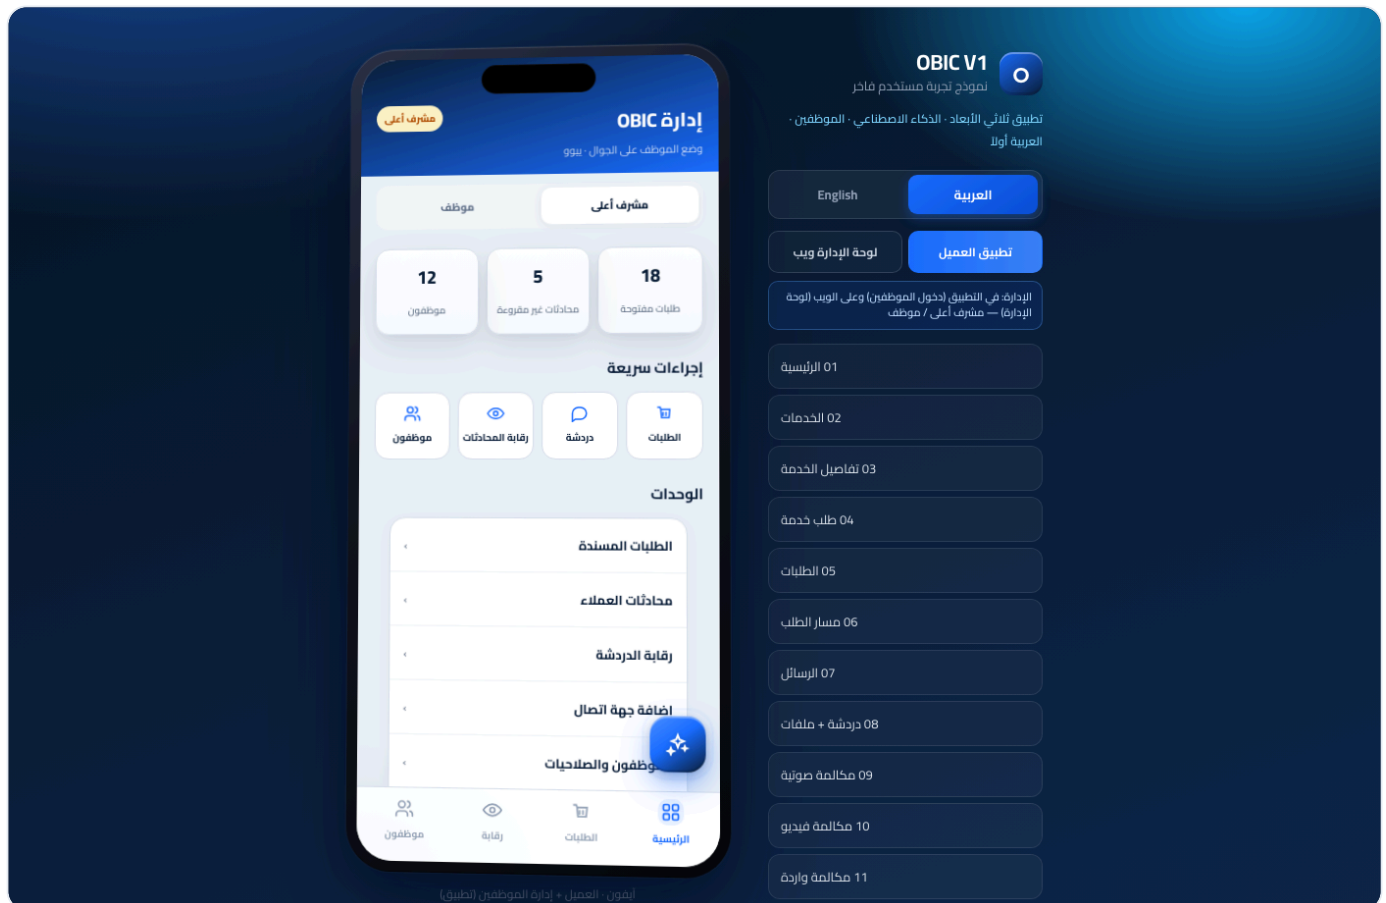

About OBIC — branches, website, Ali credit

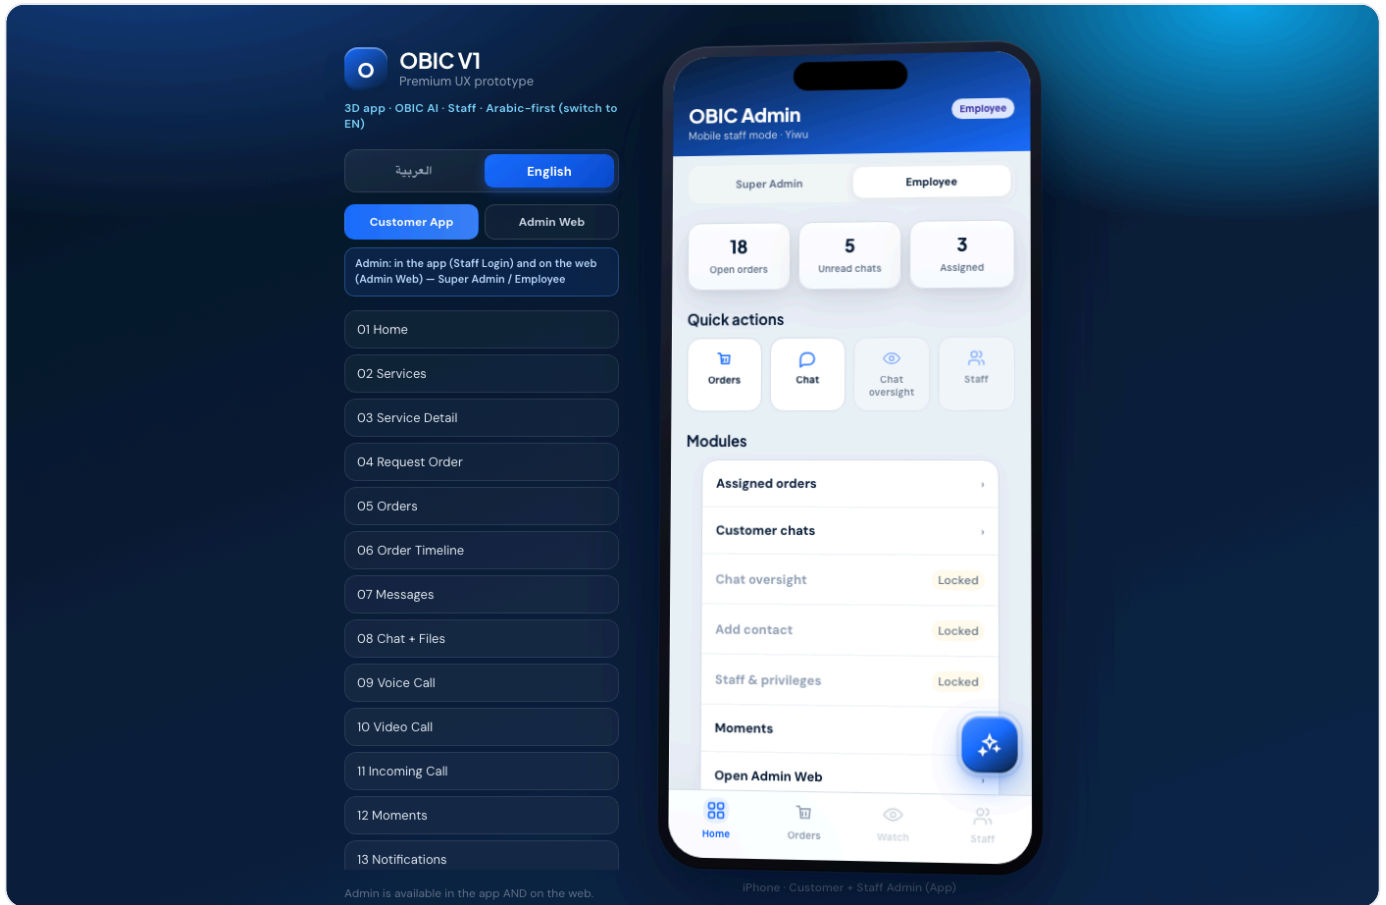

Staff Login — Super Admin / Employee role demo

10. Staff privileges

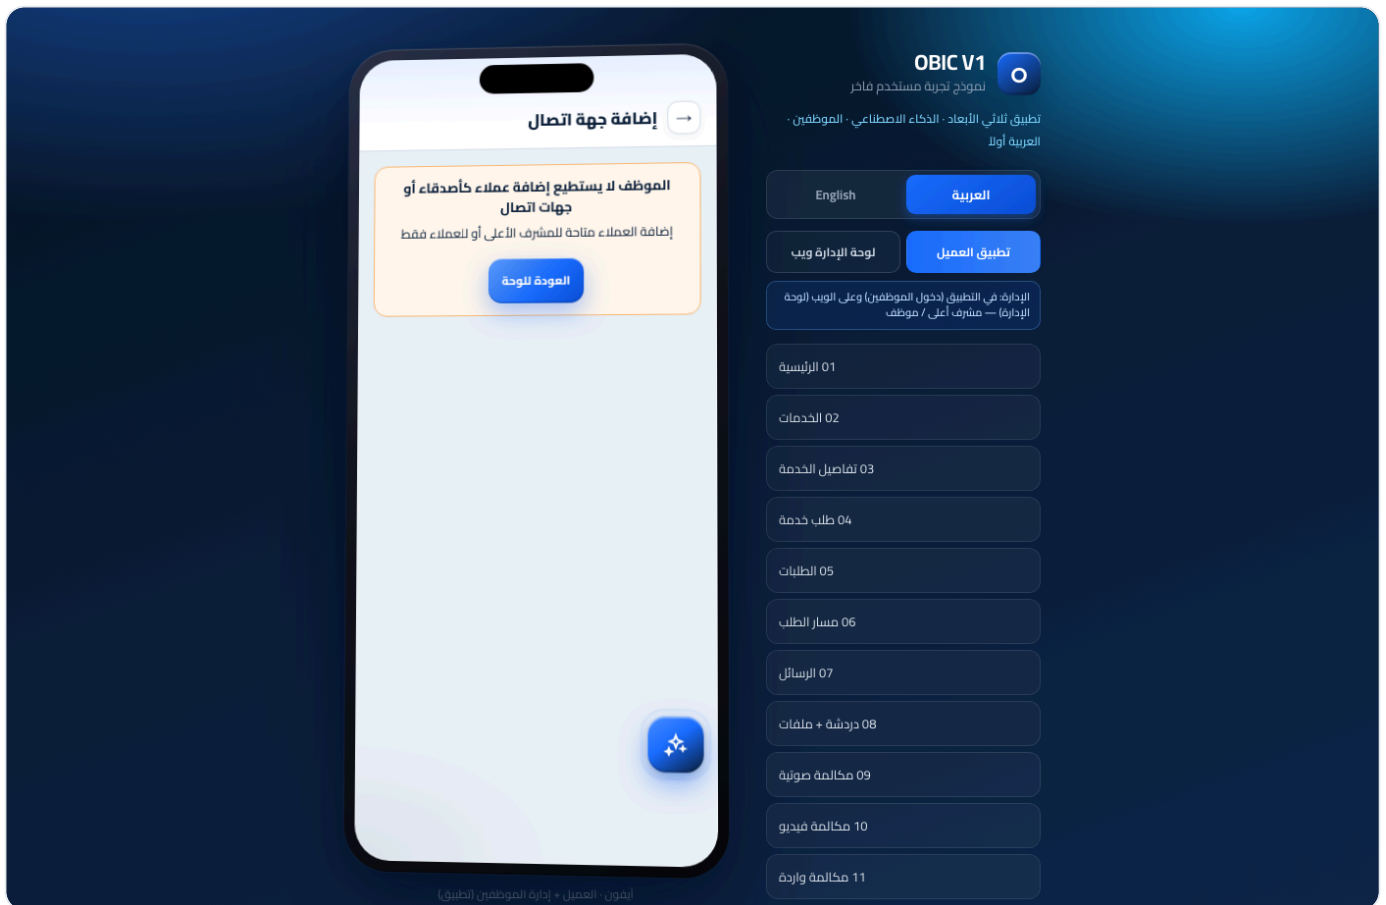

Capability	Super Admin	Employee
Orders & assigned customer chat	✓	✓
Employee chat oversight	✓	—
Add customers as contacts	✓	— (blocked)
Promote staff / grant privileges	✓	—

Admin App dashboard — Super Admin

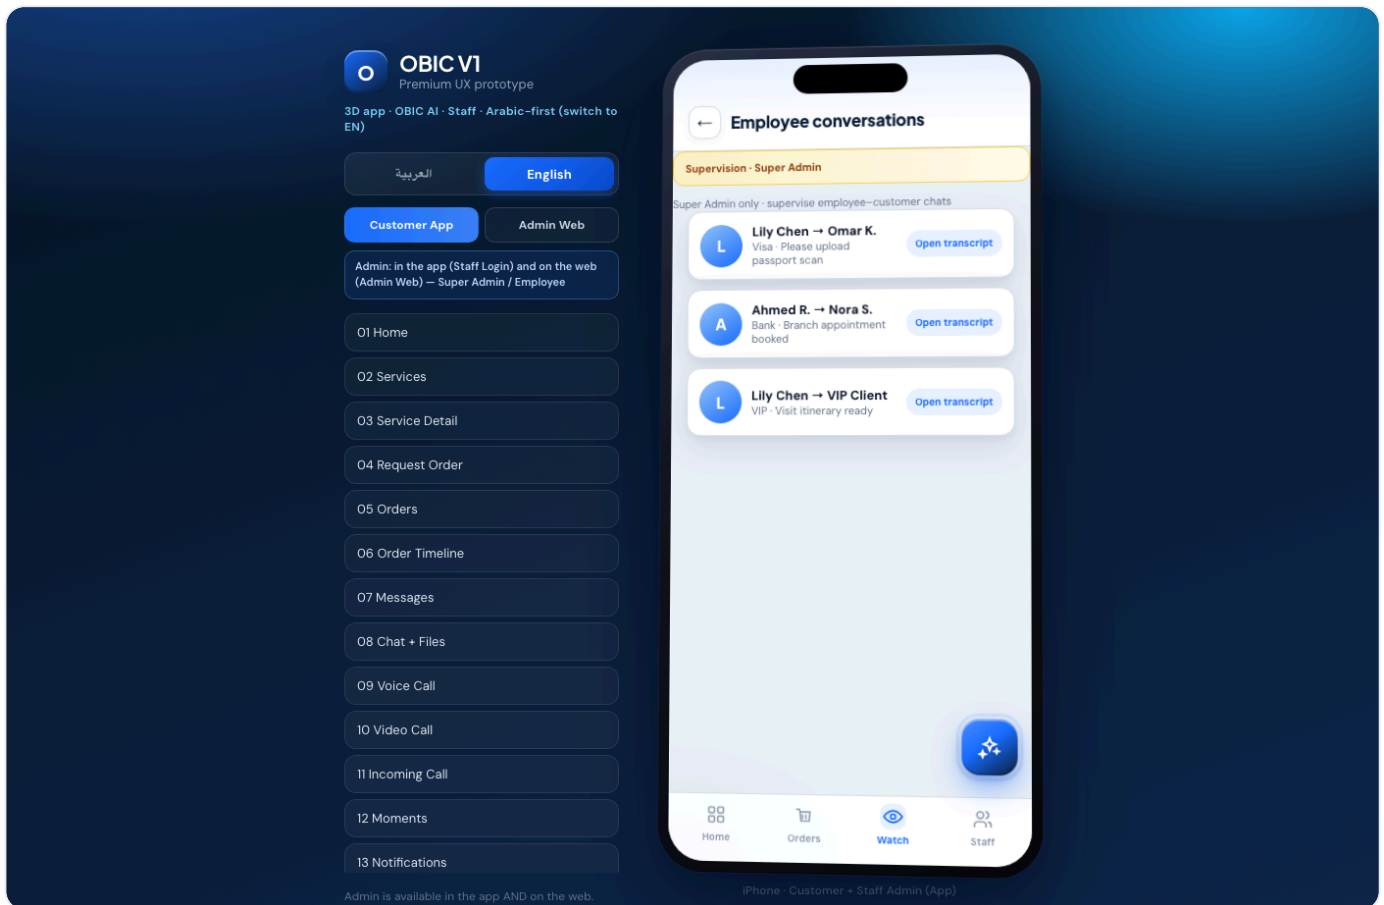

Employee view — add-customer & oversight locked

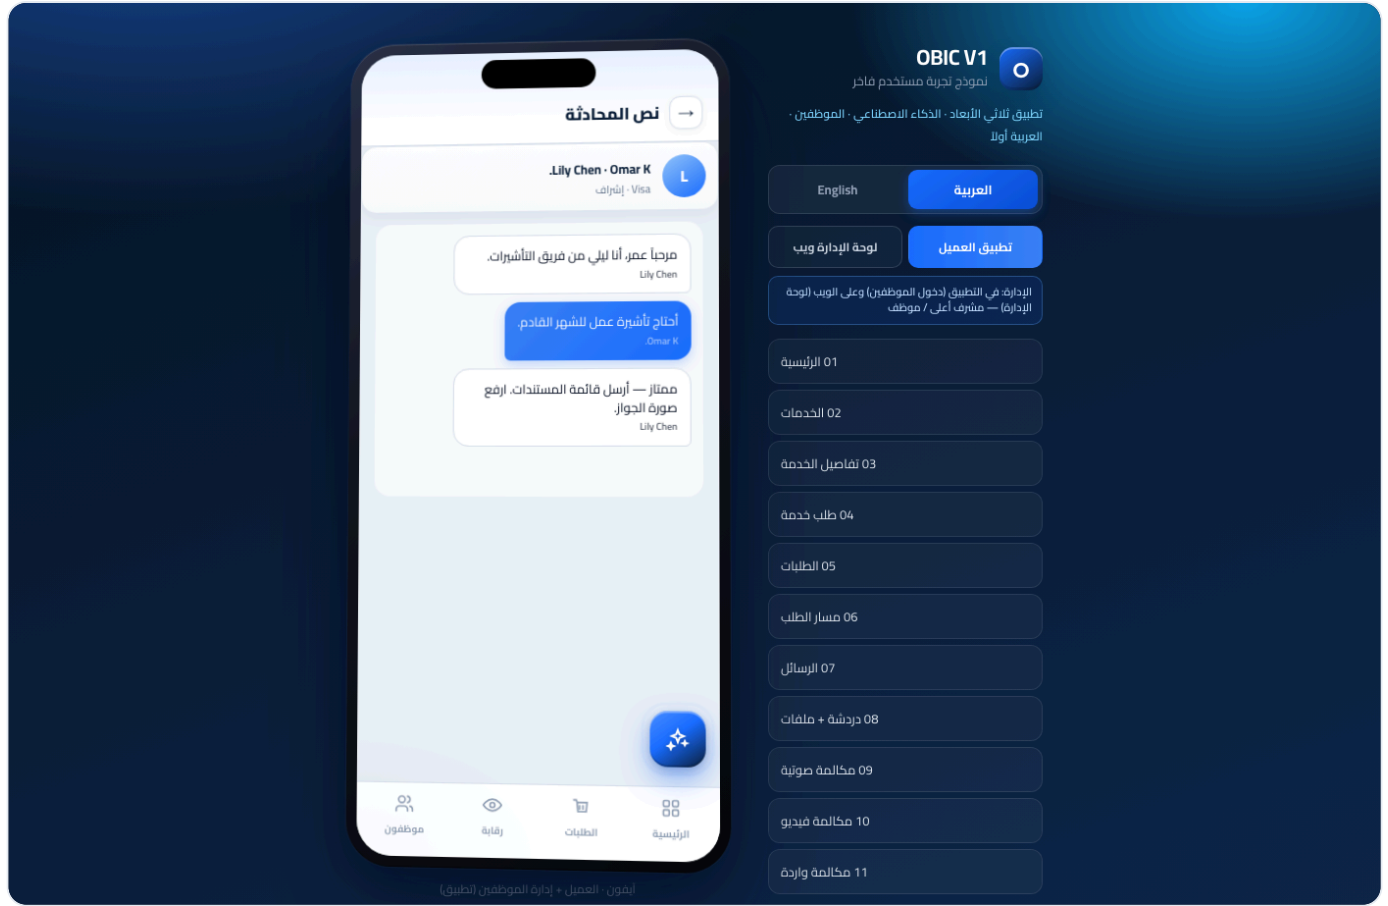

Employee blocked from adding customers

11. Super Admin chat oversight

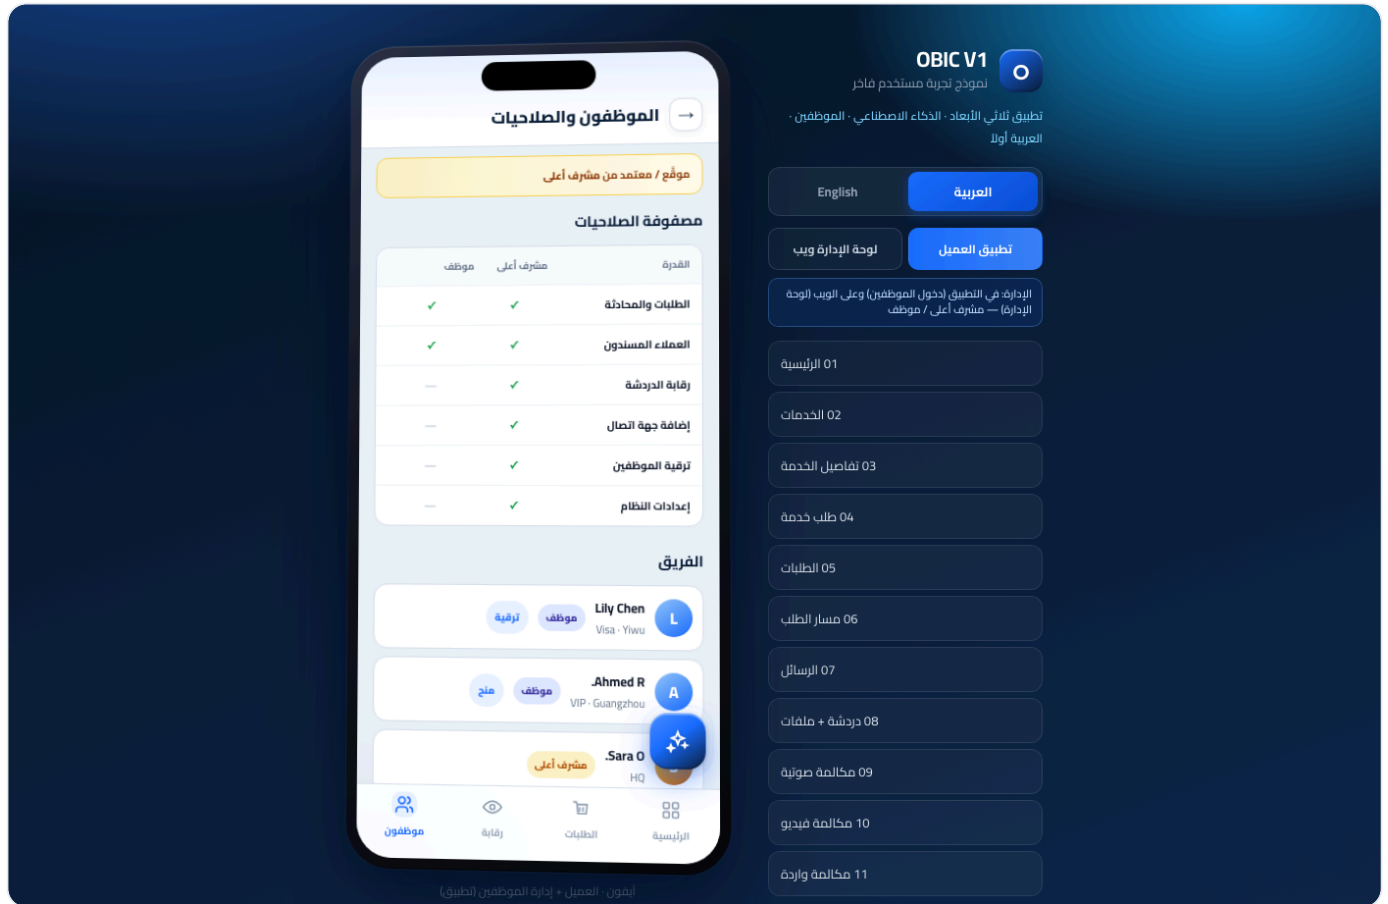

List employee–customer conversations and open transcripts for supervision. Employees cannot see other employees' private chats.
